Belize Offshore Company Anonymity and Disclosure

Belize has traditionally offered excellent privacy. Belize offshore companies are not required to disclose the names of directors and beneficial owners to the registration authorities. Whilst there is no requirement to prepare and file annual accounts, a company is required to keep financial records, which reflect the financial position of the company. There is no specific minimum capital requirement. The standard authorised share capital is US\$ 50,000. The minimum issued capital may be one share of no par value or one share of par value. Registered shares, bearer shares, shares of no par value, preference shares, redeemable shares and shares with or without voting rights permitted. Belize companies can offer bearer shares whereby it's not necessary to disclose the beneficial ownership of companies to any person in Belize. Bearer shares allow you to keep details of your shareholding private as ownership of the shares passes simply by physical transfer. As such, if you wanted to keep your holding of a particular company private, bearer shares could be ideal.
